# Check your lightbulbs!

You can save up to 500 kg of CO<sup>2</sup> FOR EACH lightbulb you exchange for an LED-bulb! That's as much as burning an entire tree for each bulb.

# Go for a bike ride!

Help to reach the community goal of 2000 bike rides in your city today. A typical bicycle ride saves up to 5 kg of CO<sup>2</sup> compared to going by car.

# Bikesharing is cheap & easy!

Taking a bike is good for the enviroment — and you as well! Bikesharing solves the problem of not owning a bike or not having your bike around you. And it's free fitness!

The closest shared bike to you is just

10.03 km

away!
